THE PERFECT COMBINATION

Once again James & Karina from DiversReady! are pairing up with Sebastian & Matthias from The Underwater Filmmaking School to offer you THE SCUBA TRIP OF THE YEAR!

Since Indonesia is - for most of us - a pretty long way away, we've decided to make this a slightly longer combination trip consisting of two parts.

- Part 1 is taking us to the beautiful ALAM BATU BEACH BUNGALOW RESORT on the north-eastern coast of Bali, our land-based part for this trip.
- Part 2 will be spent onboard the MV Mermaid II Liveaboard, taking us all the way from Bali to Komodo and back.

This is - not just in our opinion - an ideal combination for the following reasons:

1. Combine world-class land-based and liveaboard diving within one trip.
2. Dive two of the most amazing & unique dive destinations in the Indo Pacific.
3. See tiny critters like nudibranches, rhinopias, ghost pipe fish, etc. as well as large schools of fish, turtles, manta rays, sharks, etc.
4. Not needing any domestic flights (You just need to get to Denpasar in Bali) makes this an easy-peasy trip.
5. Use the land-based week to work on your diving (with James) or underwater film-making skills (with Sebastian & Matthias) and prepare yourself and your underwater camera gear for the liveaboard diving.

Of course you can also book just one of the two parts, but we recommend - for the reasons mentioned above - to join us on both parts of this epic trip.

THE DIVING - Part 1

The underwater world in Bali offers a great variety of species. Located in the southwestern part of the coral triangle, the richness of the coral reefs is unique. More than 3.500 species have been discovered here. The Indonesian current is in charge of transporting plankton to the reefs around Bali. This very important current transports the water from the Pacific Ocean, via Java and Banda Sea, to the Indian Ocean. This optimal geographic situation guarantees the great diversity of fish, coral, and critters.

Coral Triangle is home to 30% of the world's reefs. In fact, when it comes to biodiversity, it is like nowhere else on Earth. More than 75% of the known coral species live there, as well as 37% of the world's coral reef fish.

On every diving day there will be 3 guided boat dives offered to you. Two in the morning and one in the afternoon. Additionally you can do unguided house reef dives at your own leisure.

Night dives and fluo-diving are also offered. Equipped with a blue light and a special filter for your mask, the fluorescent animals glow in different colors; providing a glowing underwater experience that you will love.

THE MARINE LIFE - Part 1

The alamBatu house reef, situated directly off the resort, is a wonderful and mostly untouched reef of over 800 meters/2600 feet. The coral diversity varies from soft corals, black corals, table corals and gorgonians up to 2 meters/6 feet in diameter. The corals shelter a fantastic underwater world with many schools of fish (including juvenile barracudas, snappers), reef sharks, sea horses, harlequin shrimps and other critters. With a bit of luck you can also see dolphins, pilot whales and ocean sunfish passing by.

Aside from the beautiful house reef, there are numerous nearby dive sites that offer a variety of diving options including coral diving, muck diving and wreck diving. By Boat it only takes 15 minutes to get to the "Liberty" wreck or to the famous dive spots "Drop off", "Ulami" and "Coral Garden" in Tulamben.

alamBatu is also an outstanding place for macro photographers and videographers. Our dive guides are great at spotting micro critters such as pygmy sea horses and other small species.

THE ACCOMMODATION - Part 1

alamBatu Beach Bungalow Resort, located in north-eastern Bali, has everything to get divers' hearts beating a little faster – a dream destination for novice divers and professional photographers/videographers alike.

“Small is beautiful”: that’s the motto at this resort, which accommodates no more than 30 guests. A modern dive base with a camera room caters to all requirements and offers a very personal holiday experience.

The bungalows are generously dimensioned (40 m²/430 sq.ft) and built in the typical Balinese style with roofs thatched in alang-alang. The bungalows blend harmoniously into the landscape and are surrounded by plants and trees – so plenty of privacy is ensured. A comfortable lounge tempts you to linger and enjoy resting on the terrace. If you prefer, you can also sleep outdoors.

The bathroom is at the back of the bungalow; WC and washbasin are roofed and the shower is in the open – showering in the open air is a wonderful sensation.

The cuisine includes traditional Indonesian and Thai dishes as well as western fare. BBQs (meat or fish) and Indonesian buffets are also regular events. And of course, our menu caters to vegetarian and vegan preferences.

THE ROUTES - Part 1

Getting there by air:

The airport you want to fly into is called Denpasar (DPS) on Bali. There are plenty of flight options to reach Denpasar.

After having gone through immigration (most nationalities can get a visa on arrival) a driver from the resort will wait for you and welcome you to Bali. The drive from the airport to the resort will take approx. 3 hours.

THE ITINERARY - Part 1

Arrival, Saturday, June 8th 2024:

After arriving at Alam Batu Beach Bungalow Resort check into your room, settle in and if you have some spare time have a look around the resort. Depending on your chosen flight you will arrive at the resort in the late afternoon/early evening.

We'll all meet at 7pm for a welcome drink at the restaurant's lounge area and enjoy a tasty dinner afterwards.

Diving Days, Sunday to Thursday/Friday (depending on your return flight):

There will be 2 guided boat dives offered for you in the morning (approx. 7:30am and 10:30am) and one guided boat dive in the afternoon (approx. 2pm). In addition you can have unlimited (unguided) house reef dives as well as daily, guided night dives available.

Optional:

- 1:1 Underwater Sessions: Check out the ADD On page to book your session with James, Matthias or Sebastian.
- Afternoon/evening Dive & Camera Workshops (2 group workshops each with James and Matthias)
- Take part in Matthias & Sebastian's mini challenges. They will help you put in practice what you've learned and help you level up your underwater video skills.

Departure, Saturday, June 15th 2024:

Check out after breakfast and transfer to the harbour in south Bali to continue our adventure on the MV Mermaid II. If you're not joining us on the liveaboard portion, you will transfer either to your next hotel or the airport in Denpasar.

THE DIVING - Part 2

Komodo has it all! Its rich underwater world will enchant divers and snorkelers alike: beautiful & pristine coral reefs, schooling fish, exciting drift dives, big marine life such as Shark & Manta Rays and amazing critters. Excellent dive sites are plentiful in this great dive destination. No wonder Komodo is on the bucket list of so many divers.

As if that's not enough, above water the islands have so much to offer too. These volcanic islands are home to the world's most famous giant lizard - the Komodo Dragon. These large lizards do not exist anywhere else in the world. Liveboards offer land excursions to one of the ranger stations in the National Park to see these living dinosaurs.

There will be a total of 20 dives offered during the trip along with some land excursions.
